

# Encountering a Healing God

Isaiah 53:4-5

Because of \_\_\_\_\_, we can be healed

*How can we experience this?*

1. \_\_\_\_\_ God's \_\_\_\_\_

2. \_\_\_\_\_ God's \_\_\_\_\_

## For Further Reflection and Discussion

*Opener: When and how did you learn to drive an automobile?*

How did God speak to you or work in you at church this Sunday?

What has your experience been with divine healing?

- How have you been healed by God?
- How has God used you to bring his healing to others?

If you haven't had much (or any) experience with this, what do you think about the idea of God healing someone?

- What emotions or questions does that provoke in you?

Read Isaiah 53:4-5. How is it that we can be healed?

In these verses, what is included in the scope of the healing and peace that's provided for us?

If Jesus' death on the cross provided healing for our bodies, then why are people still sick?

- What can we do to help more people experience physical healing?

If Jesus' death provided healing for our souls, then why are people still sorrowful?

- What can we do to help more people experience inner healing?

If Jesus' death provided healing for our spirits, then why are people still sinful?

- What can we do to help more people experience forgiveness and salvation?

How can we pray for one another?
